

Assignment:

Data Visualization - Healthcare expenditure:

This dataset includes past 51 years of data from 1970 to 2020 for countries: Canada, France, Germany, Great Britain, Japan, and the United States.

Visualization Questions:

1. What is the total healthcare expenditure from 1970 to 2020, by country?
2. How has spending on healthcare in these 6 countries changed over the past 51 years?
3. What is the average age of life expectancy in each country from 1970 to 2020?
4. In which year was the highest amount of money spent on healthcare in each country? (Top 1 or 2):
5. In which year was the lowest amount of money spent on healthcare in each country? (Lowest 1 or 2):

(There are a number of factors that can affect life expectancy like Healthcare access, Lifestyle factors; Environmental factors etc. which are missing into this dataset.)
